EWI Announces New Director and Appoints CFO

Environmental Waste International Inc. ("EWI") is pleased to announce that Keith Van Beek has agreed to join its board of directors subject to regulatory approval. Mr. Van Beek brings a wealth of business experience to EWI. He is presently a managing partner of the Ridgewood Group, a management consulting company that focuses on strategic planning and business development as well as working on several projects with venture capital groups seeking investment opportunities in North America and abroad.

Mr. Van Beek's past accomplishments include his role as Vice President of International Business Development for Toys "R" Us, where he oversaw the company's growth into Saudi Arabia, Israel, Turkey, Kuwait, India, Pakistan, Egypt, the United Arab Emirates, South Africa and Sweden. He then became President of Toys "R" Us Canada and eventually President of Merchandising and Marketing for Toys "R" Us U.S.A. Previously he was the President and C.E.O. of MacLeod Stedman Inc., a hardware, real estate, trucking, automotive and retail chain of stores. The board welcomes Keith and believes that his business background and management expertise will be an invaluable asset to EWI's future growth and direction.

EWI's board of directors is also pleased to announce the appointment of Mr. Lawrence J. Cyna C.A. as its CFO. Mr. Cyna has a wealth of knowledge and experience in the business and financial fields. He is a C.A., a C.P.A. (Illinois) and an accredited mediator. Mr. Cyna is a former partner of several public accounting firms, including Wm. Eisenberg & Co Chartered Accountants and was the founding and senior partner of Cyna & Co Chartered Accounts. Until 2002, Mr. Cyna was the CFO and a director of Belzberg Technologies Inc, a TSX listed company.

Mr. Cyna brings over 25 years of experience in advising and running profit-motivated companies in all aspects of their operations. Mr. Cyna's wealth of knowledge in finance, corporate structure, negotiations and managing growth will broaden and strengthen EWI's management. EWI's board believes that Mr. Cyna will play a key role in its future growth and in developing the corporate structure to allow EWI to reach its full potential.

EWI has presently developed processors to treat medical and biological waste and rubber tires. EWI continues to work on designs for several other processors. Please visit Environmental Waste International Inc.'s home page on the Internet at: www.ewmc.com
